

Research shows that children lost out on about 35% of a school year's worth of learning during the pandemic. This reduced learning is even greater among students who live in low-income households or were already struggling before COVID.

UNITED, we can help families thrive and children succeed in school.

### Don't wait.

The ability to read by third grade plays a significant role in a child's success later in life. In fact, 88% of students who fail to graduate high school struggled to achieve third grade reading proficiency.

UNITED, we can ensure every child can reach their full potential.

### **GIVE TODAY.**

UNITED, as one community, we strengthen families and support youth so they can become the dreamers and doers of tomorrow.
